

Small but powerful, for automated applications

The new industrial vacuum designed to be placed next to the process machine when small space is available and high performances are needed. The VHW211 is the new 0,85kW industrial vacuum cleaner conceived to be placed next to the process machine in food, pharmaceutical, chemical, packaging, laser and OEM applications. The small footprint makes it suitable for any location in these applications while the powerful motor makes it ideal when high performances are needed .

The optional HEPA14 filters - both Upstream and Downstream - make it suitable for collecting the very fine dust while the Z22 version has been designed to be used in ATEX applications.

The new container and lid locking systems allow an easy removal and emptying of the container for maintenance operations, while the handles makes it extremely easy to carry.

Picture shown may not represent model quoted

- GMP conformity for pharmaceutical, food and chemical applications
- Small footprint
- Powerful
- Continuous duty (24/7)
- Explosion proof ATEX version
- Silent
- Absolute filtration for very fine dust
- Stainless steel version
- Easy to use
